

Dear Colleague:

Thank you for your recent inquiry regarding registration with the U.S. Agency for International Development (USAID). Two publications, the *Report of Voluntary Agencies Engaged in Overseas Relief and Development* and *A Resource Guide for Private Voluntary Organizations*, are enclosed to provide examples of the activities of U.S. and international private voluntary organizations (PVOs) and explain the process of registering with USAID.

These publications will assist you in completing your application for registration. Also enclosed are the Conditions of Eligibility for Registration of Non-U.S. PVOs, the International New Applicant Checklist, the Executive Contact sheet, and the optional IPVO Classification Form.

An important step in initial registration is quoted as follows:

PVOs that are not registered with USAID are encouraged to begin the registration application process by discussing with the appropriate USAID office, mission, or bureau the relevance of their proposed project to USAID's overall program and legislative mandate. If and when USAID shares clear interest, the organization might then decide to apply for registration.

In accordance with the above, you are encouraged to speak with a USAID desk officer for the country or countries in which your organization is interested. Please call our information line at (202) 712-0000 or visit our web site at <http://www.usaid.gov>. A cover letter describing your overseas programs and their relevance to USAID's strategic objectives is also requested to facilitate your application.

Submit only the most current fiscal year end documents. If your organization's fiscal year has ended in the past two months, the previous fiscal year information may be submitted. Registration with USAID is an annual event. Each year each registered international PVO submits the financial and programmatic documents to attest that it continues to meet USAID's Conditions of Eligibility for Registration of Non-U.S. PVOs.

Please note that registration does not refer to programmatic capability, nor does it confer any official status of approval. It is not the purpose of registration to make, or to enable to be made, any representation to the public concerning the meaning of being registered. Promotional materials or advertisements suggesting otherwise will be grounds for removal from the PVO Registry.

In addition, all religiously-affiliated PVOs are required to maintain

separate accounts for funds to be used for development and humanitarian activities supported by the United States Government (including USAID) and funds to be used for religious or church-related activities with a religious or proselytizing purpose or content.

Religiously-affiliated international PVOs may use their own funds for religious or sectarian purposes. These activities, however, must be separated from USAID-financed activities so as to avoid the appearance that USAID assistance subsidizes or endorses religion or promotes religious doctrines or religious indoctrination.

Submit your organization's completed application **IN DUPLICATE** to ensure timely processing to the following address:
